

1. Introduction

In line with our corporate mission that guides all employees in their daily actions, we are committed to responsible environmental stewardship. Brütsch/Rüeeggger Metals AG and its subsidiaries view sustainability and ecological responsibility as essential elements of our entrepreneurial activities. ^

2. Sustainability and Ecological Responsibility

Our goal is to combine economic activities with ecological responsibility. We strive to minimize the environmental impact of our activities and operate sustainably. We achieve this by:

- Reducing our ecological footprint through the economical use of resources and minimization of waste.
- Using and promoting renewable energy and continuously reducing emissions.
- Implementing environmentally friendly technologies and processes in our business operations.

3. Customer and Supplier Relationships in Environmental Protection

Our customers and suppliers are crucial partners in our environmental concept. We rely on sustainable relationships based on mutual trust and common environmental goals. Our commitment is demonstrated by:

- Collaborating with suppliers who share and support our environmental standards.
- Offering and promoting environmentally friendly products and services.
- Continuously developing innovative and sustainable solutions that create added value for our customers.

4. Committed Employees for Environmental Protection

Our employees are the heart of our company and play a central role in our environmental commitment. We create a work environment that:

- Promotes environmental awareness and responsibility among our employees.
- Supports the creativity and initiative of our employees to develop and implement sustainable solutions.

5. Responsibility towards Society and the Environment

Our responsible actions towards society and the environment are an integral part of our corporate culture. We take our ethical, moral, and ecological responsibilities seriously and act accordingly.

6. Continuous Improvement and Compliance with Regulations

We are committed to continuously improving our environmental performance and complying with applicable environmental laws and regulations. Through regular review and adjustment of our environmental objectives and measures, we ensure that we meet the requirements of ISO 14001:2015.

7. Communication and Transparency

We regularly inform about our environmental objectives, measures, and results and promote open dialogue with our employees, customers, suppliers, and the public.

8. Conclusion

Through these principles, we ensure that our actions are in harmony with the environment and that we make a positive contribution to society and ecological sustainability.
